

## Precalculus

**Compute logarithm of a power of the base,  
base and argument have radicals and inverses**

Todor Milev

2019

## Example

Compute as a rational number, without using calculator.

$$\log_{\frac{1}{\sqrt[3]{49}}} \sqrt{343}$$

## Example

Compute as a rational number, without using calculator.

$$\log_{\frac{1}{\sqrt[3]{49}}} \sqrt{343} =$$
