Precalculus

Compute logarithm of a power of the base, radical notation

Todor Milev

2019

Example

Compute the exact value of the expression as a rational number.

$$\log_{7} \sqrt[3]{49} = \log_{7} \left(49^{\frac{1}{3}}\right)$$

$$= \frac{1}{3} \log_{7} 49$$

$$= \frac{1}{3} \log_{7} 7^{2}$$

$$= \frac{2}{3} \log_{7} 7$$

$$= \frac{2}{3}$$
